# Investment Portfolio Profile

The management of the local component of the assets in this portfolio is split equally among the investment managers included in the Alexander Forbes South African Large Manager Watch Survey. The global component is invested in the Global Balanced Portfolio, which has a similar moderate investment profile, with allocation to global equities, bonds, cash and alternative investments.

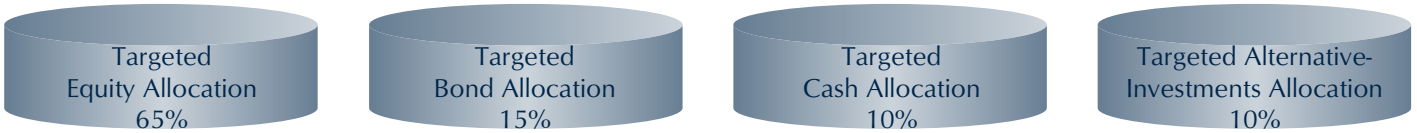
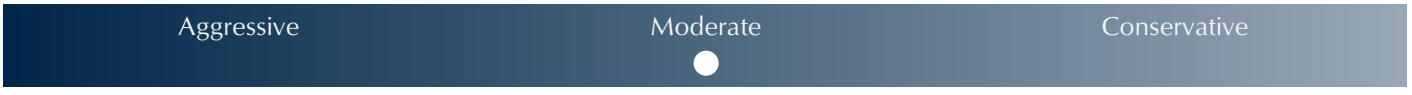
**Global Investment Strategy**



The asset allocation may be adjusted away from the targeted allocation limits depending on market conditions. Global allocation is optional and availability depends on legislation and capacity. More detail on the global component is included in the Global Portfolio Range brochure.

# Risk Meter

Risk refers to the predictability or volatility of returns over a five-year period.



This portfolio is aimed at investors with a medium- to longer-term investment horizon (between three and five years). Investment Solutions expects this portfolio to have:

- A low probability of capital loss over the medium to longer term
- Investment returns above inflation over the medium to longer term
